Has He Kept Us Out of War?

"He has kept us out of war" is offered by the Democratic Party as a statement of a supreme accomplishment. That slogan is false. To accept it without thought or reason is dangerous to the life of the nation.

For months we have been conducting a border-war with Mexico. At Vera Cruz we demanded that our flag be saluted. The demand was refused. We landed troops; a battle followed. We withdrew withuot the salute, bringing nineteen of our dead with us and leaving our honor behind; and to this day the salute demanded has never been fired.

The weakness of Mexico, not the strength of the United ftates, is all that has prevented our act of war from being turned into the serious fact of

If the slaughter of American citizens-men and womenandchildren-by armed troops, if the killing of American soldiers by the soldiers of another nation, if the sacking of our towns is not war, what is it?

The Judge Advocate General of our Army says it is war. The Mexicans say it is war. Wilson's acts show it is war, but Wilson's voice says it is

The truth is that it is more than war. It is war without honor and murder without reparation. It is a condition that makes every true citizen ashamed of the spectacle we have become in the eyes of other nations.

We have been at war; we are now at war; many lives have been lest; our honor has been besmirched and yet the Democratic party cries to the nation, "He kept us out of war," "He has protected me and mine." The fact is that he has neglected our greatest treasuries-the lives of our citizens and the honor of our country.

It is our tradition to honorably keep out of war, but not to spinelessly creep into war.

Mr. Wilson has not kept us out of war. Mr. Wilson has put us into war.

Mr. Wilson is making war upon the moral fiber of this nation.

and crime, and that capitaism produces the poverty. They are socializing things over in Europe. To figut a successful war they are doing what they refused to do to establish a lasting peace. The claws of the monoponst have been clipped. Nobouy can "corner" any of the necessaries of life in the warring nations. The governments have been forced to a very large degree of Socialism. All of the necessaries of life are under government control, and the governments not only fix the price to consumer, but the amount he may buy at one time also.
